PROFILE

Graduate in Systems Analysis and Development (SENAI), with hands-on experience repairing and maintaining computers and mobile phones, and building web applications that are live and used by real people. I also have experience in industrial logistics, including raw material requisitions and goods receiving. I learn quickly, adapt easily to new environments and work well in a team.

DEVELOPMENT PROJECTS

VoiceClub

voiceclub.eu · Personal project

- Voice and screen-sharing platform for gaming with friends, with around 670 members and 24/7 live streams.
- Available in the browser and as a desktop app; I manage the hosting and the server myself.

Stack: Node.js, WebSocket, WebRTC, PostgreSQL, Electron

Ideal Steel Workforce

idealsteelworkforce.com · Web system in production

- Employee management for a steel structures company: time tracking, payslips, bonuses and job applications.

Stack: Node.js, Express, PostgreSQL, JWT

Arq Steel Projects

arqsteelprojects.eu · Company website

- Multilingual website (PT/EN/ES) for a steel structures company in Braga, with a per-project timesheet tool that exports to Excel and PDF.

Stack: HTML/CSS, JavaScript, PWA, Supabase

WORK EXPERIENCE

Production Operator – EPP Moulding

09/2025 – 09/2026

BEWI Plastimar · Santo Tirso, Portugal

- Operated 4 EPP moulding machines and an automated robot that places inserts in parts.
- Quality control: measured insert depth and visually inspected parts for defects and non-conformities.
- Fed machines with raw material, packed finished goods and prepared daily shipments.
- Reported faults and anomalies and followed safety and quality standards.

Assistant Operator – Technical Support

03/2025 – 09/2025

Worten · Vila Nova de Famalicão, Portugal

- Maintenance and repair of mobile phones, computers and laptops.
- Formatting, cleaning and installing Windows and Microsoft Office.
- Customer service and sales; received faulty equipment and returned it to suppliers.

Logistics Assistant

01/2021 – 05/2022

O Feliz Metalomecânica · Celeirós, Braga

- Issued requisitions and nested raw materials for purchasing.
- Received raw materials (steel profiles, paints and fasteners) and validated certificates for traceability.
- Organised shipping of finished products and the related paperwork.
- Managed drivers on a daily basis.

Waiter

02/2019 – 03/2020

Adega Dantas · Lisbon, Portugal

- Counter service, stock replenishment and upkeep of the work area.

Computer Hardware Repair Technician

01/2018 – 02/2019

Fortun Ferrari Informática e Automação · Jaguariúna, Brazil

- Assembled, maintained and repaired desktop computers and laptops.
- Formatted machines and installed Windows and Microsoft Office.
- Customer service and administrative support.

EDUCATION

Systems Analysis and Development

07/2023 – 12/2024

SENAI Jaguariúna, Brazil · EQF level 5
